

Alphamesh

A-2CV (odourless) Facemask

Helapet offer the Alphamesh A-2CV (odourless) Facemask as part of our specialist portfolio of Personal Protective Equipment (PPE). An FFP2 rated disposable respirator, the Alphamesh mould provides a comfortable fit with impregnated charcoal to prevent odour penetration.

The A-2CV facemask is manufactured completely metal free to EN149:2001 quality standards and CE marked. Supplied with high specification filter media and incorporating a quality preformed nose bridge, this unique model can be used for long time periods without the need for replacement or adjustment. A fully adjustable head strap provides a secure fit whilst ensuring a good field of vision over the respirator.

Features and Benefits

- ✓ Metal-free and latex-free construction
- ✓ Activated carbon to prevent odours and organic vapours
- ✓ Adjustable head strap for a secure, comfortable fit
- ✓ Retains shape with integrated nose bridge
- ✓ Conforms to EN 149:2001+A1:2009
