

Clearview Visor Facemask

Helapet offer the BioClean™ Clearview Visor Facemask, designed to grant enhanced facial protection without the need to sanitise disposable goggles which could lead to product contamination. The integrated 210mm wide anti-fog visor grants maximum coverage and is optically clear and distortion free. Each facemask contains a liquid repellent hydrophobic outer layer and a hydrophilic inner layer to efficiently absorb moisture.

Latex-free and low-linting, the BioClean™ Clearview Visor Facemask is ideal for use in ISO Class 4 environments. A choice of ear loops or tie-on fastening is available based on individual preference.

Helapet supply this product sterile, individually bagged in paper-free packaging with full lot traceability.

Features and Benefits

- ✓ All-in-one face and eye protection
- ✓ PFE >96%, BFE >94%*
- ✓ Low linting materials
- ✓ Ear-loops or tie-on fastenings
- ✓ Latex-free

*PFE – Particle Filtration Efficiency / BFE – Bacteria Filtration Efficiency

Technical Data

Material	Outer Facing Layer	Hydrophobic Polyester (Non-Woven)	
	Inner Facing Layer	Hydrophilic Polypropylene/PE (Non-woven)	
	Filter Layer	Meltblown polyester	
	Fastenings	Ties	Non-woven Polypropylene
		Loops	Polyurethane (with blue plastic clip fastener)
	Nose-band	Plastic coated steel	
Colour	White		
Type	Tie-on or Headloops		
Mask Size	210mm Width; 90mm Height		
Visor Size	Anti-fog visor – 0.18mm thickness (7ml)		
Processing	Produced in a facility holding ISO 9001:2015 and PPER 2016/425 Module D		
Particle Filtration Efficiency (PFE)@ 0.3 Micron	>96%*		
Bacterial Filtration Efficiency (BFE) @ 3.0 Micron	>94%*		
Differential Pressure (ΔP), mm H ₂ O/cm ²	3.2		
Packaging	One piece per sealed inner PE bag; 25 x inner bags per sealed outer PE bag; 4 x outer bags per lined carton		
Compatibility	ISO Class 4		
Compliance	Sampling and inspection in accordance with ISO 2859-3:1993; Tested against standard ASTM F2101 for Bacterial Filtration Efficiency (BFE)		
Sterilisation	Gamma irradiation		
Shelf Life	5 years from date of manufacture		

*Facemasks with a high particle filtration efficiency (PFE) and bacterial filtration efficiency (BFE) are recommended for use in cleanrooms and sterile areas.
