

Chemo-Trans-Waste Bag

Helapet Chemo-Trans-Waste bags offer a secure single-use solution for both transportation and disposal of cytotoxic medications.

Manufactured from strong, clear polyethylene, each bag allows for easy identification of the contents and includes yellow hazard labelling with a convenient write on panel.

Available in two sizes in sterile and non sterile presentations to accommodate various types of product.

Each single-use bag incorporates a sealable fold over closure for tamper-evident single use. Chemo-Trans-Waste bags are supplied gamma sterilised for assured use in high grade cleanroom and isolator environments.

Features and Benefits

- ✓ Labelled transport of cytotoxic preparations or waste
- ✓ Two size options
- ✓ Secure tamper-evident seal
- ✓ Robust 400 gauge/ 100 micron polyethylene material
- ✓ Sterile and non sterile
