# Chemsplash®

## Elasticated Non-Slip Overboots

Designed from low-linting, chemically resistant Type 5 and 6 material, Chemsplash® Elasticated Non-Slip Overboots grant an enhanced, secure fit over standard footwear with an elasticated opening at the top and ankle. A slip retardent sole facilitates extra grip on smooth surfaces.

### Features and Benefits

- ✓ Comfortable, chemically resistant type 5 and 6 material
- ✓ Anti-slip, clear PVC sole preventing slips on smooth surfaces
- ✓ Secure elasticated opening at the top and ankle for snug fit over standard footwear
- ✓ Anti-static and non-linting for assured use within cleanroom environments
