

Coventry™

Swabs

Coventry™ cleanroom swabs are designed for precise cleaning and application, engineered using clean materials to keep contamination out of your process. Heads have excellent solvent compatibility and are available with wrapped polyester or sealed foam.

Coventry™ Wrapped Polyester Pillow Tip Swab

Consists of a polyester knit fabric which provides low non-volatile residue, ionic and particulate contamination. Glass filled nylon handles are rigid like wooden handles, ideal for cleanroom use.

Features and Benefits

- ✓ Adhesive-free swab, durable head construction
- ✓ Excellent solvent compatibility and retention
- ✓ Glass filled nylon handles
- ✓ Lint free

Technical Data

Swab Length	15.9cm
Handle Width	3.1mm
Head Length	10.2mm
Head Thickness	6.5mm
Head Width	6.0mm
Handle Material	Glass Filled Nylon
Head Material	Knit Polyester

SF2112

Coventry™ Utility Sealed Foam Swab

Manufactured from reticulated 100 pores per inch (ppi) medical grade foam, each head provides excellent compatibility with most common solvents. The fibreless construction results in no loose particles, thermally bonded to the swab handle without the use of adhesives.

Features and Benefits

- ✓ Cost-effective cleaning and sampling
- ✓ Excellent particle entrapment
- ✓ High solvent holding capacity
- ✓ Free of adhesives or binders
- ✓ Fibreless construction
