

# Moldex Activform<sup>®</sup>

## (FFP3) Facemask

This quality facemask is type-tested and certified, conforming to FFP3 SLD EN149 standards and ideal for use with potentially harmful aerosols, biological agents and CMR substances.

With a washable and fully adjustable face seal, the Activform<sup>®</sup> facemask can be used beyond 8 hours after which other FFP facemasks must be disposed of (not applicable to CMR substances). With the additional benefits of being completely odourless and tasteless, the Activform<sup>®</sup> Facemask is ideal for use with hazardous aerosols in cleanroom operations.
