

# Polyethylene Overshoe

Polyethylene Overshoes from Helapet are low linting and splash resistant, providing effective barrier protection against chemicals and dry particles.

Designed with elasticated ankle cuffs allows for easy donning and removal.

Ideal for visitors, each overshoe is designed to universally fit over flat footwear, providing suitable grip to minimise the risks of slips and falls on smooth cleanroom surfaces.

## Features and Benefits

- ✓ Easily secured over different type of footwear
- ✓ Resistant to a wide range of chemicals
- ✓ Facilitates grip on smooth cleanroom floors
- ✓ Low linting material
