

Polythene Oversleeves

Polythene Oversleeves offer cost effective splash resistant protection to arms and garment sleeves. The lightweight, low linting material provides enhanced arm protection with a universal fit over standard cleanroom suits and workwear. Elasticated edges secure the oversleeve in place without restricting freedom of movement.

Helapet offer our Polythene Oversleeves non sterile or terminally sterilised in pairs.

Features and Benefits

- ✓ Splash resistant protection
- ✓ Light and comfortable
- ✓ Low linting materials
- ✓ Sterile and non sterile
- ✓ 40cm length
