

Resealable Polybag

Helapet offer a range of sterile ready-to-use Resealable Polybags, ideal for bagging and labelling of small sterile samples to larger products.

Available in three size options, the clear polyethylene material allows for easy identification of the contents with a resealable tab for multi-opening. A4 size options can comfortably hold worksheets and other important paperwork for convenient transfer into and between cleanroom environments.

Each bag is packaged in an ISO Class 4 environment, ready folded and placed in a heat-sealed easy peel pouch limiting the risk of dust or moisture contamination. Each bag is gamma sterilised to no less than 25 kGy.

Features and Benefits

- ✓ Robust 250 gauge / 62 micron polyethylene material
- ✓ Comprehensive range of sizes including A4
- ✓ Resealable for multi-use activities
- ✓ Heat sealed and packed in an easy-peel pouch
- ✓ Sterile

Ordering Information

XX1004

W228 x L323mm (A4) • sterile • 8 x 25 pcs/pack
