

Sterile Sharps Bins

Helapet Sterile Sharps Bins are manufactured to the highest quality to facilitate the safe and efficient disposal of sharps. Colour coded for appropriate disposal of medicinal waste and cytotoxic/cytostatic contaminated waste, Helapet Sterile Sharps Bins are also supplied in five popular sizes from 0.6 litre to 7 litre capacities.

Every sharps bin complies with waste guidance set down by the Department of Health. For critical environment applications, each sharps container is individually double or triple bagged and sterilised by gamma radiation to no less than 25 kGy.

Reducing time and the need for excessive spraying and wiping, Helapet Sterile Sharps Bins are ready for immediate transfer and use in high grade cleanroom facilities, including Laminar Flow Cabinets and Isolators.

Features and Benefits

- ✓ Safe and simple disposal of sharps
- ✓ Maximum capacity in minimum working space
- ✓ Colour coded lids for standard or cytotoxic waste
- ✓ Individually double or triple bagged
- ✓ Terminally gamma sterilised
- ✓ Five convenient sizes
