

SteriClean®

Aerosol Hand Sanitiser

This convenient pocket sized 50ml hand sanitiser delivers an aerosol of 70% ethanol to the skin. The formulation has been proved to kill 99.99% of bacteria in accordance with EN13727 and 99.99% of yeasts and moulds in accordance with EN13624. These standards meet the performance criteria for medical hand sanitisers.

Trace amounts of glycerine enable distribution of the alcohol across the skin of the hands and wrists prior to evaporation.

Features and Benefits

- ✓ Peace of mind – validated to EN13727/EN13624
- ✓ Light weight aerosol can
- ✓ Cost effective – 50ml can
- ✓ Compact fitting into pockets of uniforms, gowns and bags
