

Cleanroom Contract Packing & Liquid Filling

Helapet offer significant cleanroom capacity to manually hand pack, bag and seal according to project specifications.

Our semi-automated bagging technology means Helapet has the flexibility to accommodate larger bulk projects and run different bagging formats.

Our liquid filling services are conducted in an ISO Class 4 environment, providing clients with assured product quality.

Using extensive knowledge and a trusted network of sterilisation suppliers, Helapet provide consultation and sterilisation management with testing data to ensure all products comply before final release.

In-process quality control and monitoring with regular inspections provides additional piece of mind.

Cleanroom Packing and Bagging Options include:

- Individual Component Packing
- Single, Double and Triple Bagging Services
- Bespoke packaging configurations
- Pouch Sealing
- Poly Bagging
- Own Brand Labelling

Liquid Filling and Processing Options Include:

- Trigger Spray Bottle Filling
- Bag in Bottle Closed Systems
- Capped Containers
- Biocide Filling
- Impregnated Wipes
- Own Brand Labelling
