**SteriClean Alcohol Spray**  
**The disinfection of choice**

SteriClean Alcohol Sprays are still the disinfection of choice for aseptic areas offering rapid evaporation and minimal residues.

The ergonomic design of the bottle together with the long length trigger helps the operator avoid the fatigue associated with repetitive strain injury.

The bag in bottle closed system and non-venting trigger maintains the sterility of the contents throughout use and ensures that every last drop is dispensed avoiding unnecessary wastage.

For more information or to try the sprays in your unit, please contact our sales team on **0800 0328 428** or visit our website [www.helapet.co.uk](http://www.helapet.co.uk) and submit a request on-line.
