Title: Winners of the Kathryn Miles Poster Competition 2009

In line with Helapet's continued commitment to education and the development of its staff and customers, we were once more delighted to sponsor the Kathryn Miles Poster Award in collaboration with the Association of Pharmacy Technicians.

Posters were presented at the APT conference and exhibition 2009 which was held in Cardiff, and were judged for content, clarity, originality and visual impact.

Many congratulations to Victoria Brereton who was presented with 1st prize for her poster entitled: 'Comprehensive Training Manuals for Aseptic Services'. Victoria is chief pharmacy technician for the Wirral University Teaching Hospital NHS Foundation Trust.

2nd prize was awarded to Derek Ford for his poster entitled 'The implementation of an automated medication storage and dispensing system within the acute medical unit (AMU) – Ninewells Hospital, Dundee'.

3rd prize went to Allan Malone for his poster 'To assess the suitability of the new medical gas store to meet clinical demands at the national Hospital for neurology and neurosurgery'. Allan is based at the University College Hospital in London.

The standard of entries was very high this year and it was pleasing to see so many posters and abstracts submitted and displayed at the conference.

Well done to everyone who presented a poster and many congratulations to our worthy winners.

The winning poster abstracts can be viewed on our educational resource website www.helapet.net
