Hot off of the press.... The all new Porter brochures

It's here... The latest edition of our [VaccinePorter®](#) and [BloodPorter®](#) carrier brochures, now available in print and on digital download.

Both four page brochures provide an easy overview of our Porter carrier systems, designed for the safe transportation of temperature controlled products including Vaccines, Red Blood Cells and Platelets.

Choose the correct Porter size for your application by using the internal and external dimension information detailed inside. You can even tailor design your carriers by choosing from a range of colour options and bespoke branding.

Did you know that Helapet also offer temperature controlled [carriers for TPN bags](#) and Human Plasma too?

For additional customer service and technical support, full contact details are included in the brochure. Request your preferred Porter brochure by emailing us at sales@helapet.co.uk or contact us directly on **(0)800 0328 428**.
