PRESS RELEASE

Conveniently Sterile Sharpsbins

Helapet now offer a convenient, individually wrapped sterilised Sharpsbin for use in Pharmacy Aseptic areas and Isolators. **Save** all that valuable time spent wiping bins, **save** on some of that harmful IPA \ IMS spraying, and **save** money with economical pack sizes designed to suit typical hospital pharmacy usage rates.

We have three products currently available: 2.5 litre and 5 litre general purpose Sharpsbins and a 5 litre Cytotoxic Sharpsbin, all with the usual rugged construction you expect. They are strong, safe and easy to use single-handed with needle and blade removers. The lids have a temporary closure feature for extra security. All are manufactured to Approved ISO 9002 and British Standards BS7320:1990.

“Many of our pharmacy customers appreciate the real benefits of the pre-sterilised product. It allows more time for pharmacy manufacturing and less time spent with costly spraying and wiping” states Glenn Kenworthy, Marketing Manager at Helapet, “We see this as a simple but effective way of improving work practices in today’s ever busy hospital manufacturing pharmacies”.

For further information and **FREE** samples please contact the Helapet sales team on 01582 501980 or via email at: sales@helapet.co.uk.

All our products can be viewed and samples requested online at our new website: www.helapet.co.uk
