PRESS RELEASE

Cytotoxic SpillsReal Protection for you

Helapet introduce..... A Cytotoxic Spill Kit from Berner International, one of the world's leading and most respected supplier's of products for the safe handling of cytostatic drugs.

In the event of a spill of cytostatic drugs, (hospital) staff need to feel confident that they can control and clear the dangers of harmful toxins without placing themselves or other staff and patients at risk. The Berner Cytotoxic Drug Spill Kit offers the solution. The kit comprises all the necessary aides for an individuals' protection, including gloves, gown, overshoes, masks, 'Chemosorb Pads', disposal bags. There is also a step by step users guide to avoid any possibility of mistakes during handling. The complete kit is packaged in one easy to store and use carton that doubles as a scoop and sweeper.

"We are very confident that this product will address a real and growing need for a safe method of handling cytotoxic spills for Hospital personnel" comments Glenn Kenworthy, Marketing Manager for Helapet, the exclusive distributors for Berner International products in the UK. "We are already seeing a lot of interest from our customers who are testing this important product. We forecast exceptional sales once the benefits of this kit are realised by all personnel with the responsibility for handling or administering cytostatic drugs".

Helapet are the UK distributors for the Berner product range and our sales team can provide full product support and information on 01296 632244 or you can e.mail us at: info@helapet.co.uk www.helapet.co.uk
